

### **The SCOTTY "Pup" (16.5 Foot Length Frame)-Call for pricing**

Our smallest length trailer is a compact 16.5 total feet and is designed for Sprinkler Demonstrations & Fire Extinguisher Training. The lightweight 100% aluminum tube constructed trailer carries 80 gallons of fresh water and is all 12-volt powered-no generator needed. The stainless steel propane gas burner is located below the floor in the burn area and is easily ignited. You can control the activation of the sprinkler head by use of a remote control. Exterior thermometer displays internal temperature during the demonstration.
